

Sheet Metal Worker

Certificate of Qualification 308A

“My work is an important part of building our communities. I love it.”

Enjoys working with hands

Mechanical aptitude

Good hand-eye coordination

Entrance Requirements

- Grade 12 Diploma preferred (Grade 10 minimum)

Did You Know?

Sheet metal workers work with black iron, galvanized steel, stainless steel, aluminum, copper, brass, nickel, tin plate and other alloys.

Key Skills & Attributes

- Good mechanical and mathematical aptitude
- Excellent hand-eye coordination and spatial perception
- Good physical condition

Apprenticeship Program

9000 hours of on-the-job training, supplemented by three 8-week sessions of in-class technical training.

Sheet Metal Workers design, fabricate, assemble, install and repair sheet metal products. They lay out and measure pieces to job specifications, using tools such as hand shears and power shears, press brakes, drill presses and computerized cutting equipment to cut and shape material. They also assemble pieces using various techniques such as welding and using mechanical fasteners.
